[www.cnps-yerbabuena.org/plantsale](http://www.cnps-yerbabuena.org/plantsale)

Experts in native gardening will be on hand to answer questions. Natives conserve water and attract birds, bees, butterflies, and other wildlife.

"San Francisco native" means natives propagated from plant populations in San Francisco and northern San Mateo County. Local plant populations are naturally adapted to the unique climate of our area - and planting local natives helps maintain the integrity of this unique gene pool.
